

## Mission

To advocate Singapore's major industry, and to facilitate substantial growth of the semiconductor sector and its businesses internationally.

## Key Facts

Singapore Semiconductor Industry Association (SSIA) is the voice of Singapore's semiconductor industry. We are committed to support this important sector in Singapore in order to facilitate substantial growth of the whole semiconductor economy of the country. SSIA members today include companies and organizations throughout all parts of the complex and comprehensive value chain - IC design companies, Manufacturers, Fabless companies, Equipment suppliers, Photovoltaic companies, EDA and material suppliers, Training and service providers, IP companies, Research institutes and Academia, as well as individual members.

The association started in 2005 under the name "MIDAS" and is operating with an extended charter under the new name "SSIA" since early 2010.

## SSIA Charter

The key elements of the SSIA Charter are:

- Act as the Voice of the Singapore Semiconductor Industry
- Support of Business Growth
- Facilitation of the Development of Cutting Edge Technology & Capability
- Development of Manpower and Key Talents
- Facilitation of Communication and Networking within and outside of the Industry

## SSIA Executive Committee

SSIA strategies and operations are laid out and facilitated by an executive committee which sets the organization's general direction, decides matters of overall policy and reviews SSIA activities. The SSIA Executive Committee is committed to the goals and principles of SSIA. The SSIA Exco represents some of the most prestigious companies in the semiconductor industry and includes representation of both large and small companies, along with industry as well as academia.

## SSIA Advisory Board

SSIA Advisory Board provides over view and strategic guidance to the association. It reviews the association's plans, management and execution with a focus on longer term strategy and vision for SSIA. The SSIA Advisory Board represents a mix of industry leaders spanning Singapore's semiconductor ecosystem as well as leaders from the public sector.

## SSIA Membership Benefits

**Leadership Development:** Numerous available leadership opportunities

**Visibility:** Networking, individual and company visibility

**Advocacy:** Collectively address Singapore semiconductor industry challenges

**Shared-Knowledge:** Access to Singapore-focused market and industry data and surveys

**Education and Capability:** Develop Singapore's semiconductor capability
